

4965

Double Coated Film Tape

Product Description

4965 is a double coated tape with a polyester backing and transparent modified acrylic adhesive. It is able to bond to low surface energy substrates as well as handle high stress, high temperatures or critical substrates.

Available in clear with MOPP liner.

Main Applications

- Mounting plastic parts, decorative profiles and more
- High temperature applications
- Recognized by UL Standard 969

Product Information

Backing	Thickness (mil)	Adhesion to Steel (oz/in)	Adhesive Type
PET Film	8.1	107.8	Acrylic
Operating Temp. Range (°F)	Short Term Temp. Resistance (°F)	Elongation at Break (%)	Tensile Strength (lbs/in)
≤212	392	50	11.4

Application and Storage

Note: The physical and performance characteristics shown are averages obtained from tests performed according to ASTM and PSTC test methods. Matco can make no warranty of any kind as to the results of the adhesive product use. The information published here is representative of laboratory research on these products and is believed to be reliable. Values should not be used for specification purposes. Each user should make their own test to determine the products suitability for their own intended use and shall assume all risks and liabilities in connection therewith. Materials should be stored at 70°F (21°C) with 50% relative humidity.
